Major Enemies: Deadlines, the seven-day work week, liars

Favorite Top Cow Comics: You mean besides the ones I'm writing? The Darkness.

Major Weaknesses: What, tell you and have them used against me? Yeah, right.

If the world was going to end, how would you want it to end? With me watching from a safe distance.

Which Artifact would you bear? The Mojito Artifact. Is there a Mojito Artifact?

Favorite Convention Horror Story: One year at San Diego, I took pity on a friend who couldn't get a room and let him crash in my room. My act of kindness was repaid with the discovery that he snored louder than a choir of chainsaws. I got less than two hours of sleep every night. On the plus side, I resisted the urge to smother him with a pillow.

Donut of choice: French cruller. In Paris.

Secret Ambition: Play the guitar. Or play third base for the Mets. Play the guitar seems more likely.

The Best Thing I Ever Ate: Lobster cannelloni at de'Medici in San Diego

Drink of Choice: Free ones

There is no vacation in comics. But if you had time off, what would you do? Read all the comics and novels that I don't have time to read now.

What reality TV show would you star in and why? The reality show where I have all the other reality shows canceled, because they suck.
